

THRONE ROOM
PEDALS

9V POWER SUPPLY

AND ACCESSORIES

THANK YOU!

We'd like to thank you for choosing to play Throne Room Pedals - we are very grateful for your purchase! You've now joined our family of musicians worldwide that enjoy premium, USA-made products.

From our humble beginnings on the dining room table in a small apartment, we've grown to see our products sold through some of the world's top music distributors and toured with on nearly every continent.

Our products appeal to all types of musicians - from beginning players to world-renowned bands to churches and ministries across the globe. They offer a quality and durability that has seen them endure sustained use in 24/7 operating environments and carried in flight cases around the world.

It's because of you that we can continue our quest to build such great gear. With our expertise in lean manufacturing and fine attention to detail, we're on a continued quest for improving even our best products.

From the bottom of our hearts, thanks for playing Throne Room Pedals - and rock on!!

| | |
|--------------------|--------------------------|
| PLUG | US (North America) |
| POWER CONNECTOR | 5.5mm X 2.1mm center pin |
| POLARITY | Center pin negative |
| INPUT POWER | 100-240VAC, 50/60Hz 0.5A |
| OUTPUT VOLTAGE | 9VDC |
| MAX OUTPUT CURRENT | 2,000mA (2A) |

OPERATION

9V Power Supply - The 9V power supply may be used to power any guitar pedal or electronic device requiring a 9V power source and less than 2,000mA (2A) of current, with a 5.5mm X 2.1mm center pin and a center negative, barrel positive connection. This fits the requirements for many guitar pedals, and is “the standard”. Check the user manual for your product to be sure that it matches these requirements, or permanent damage may be caused to the device! Throne Room Pedals is not responsible for damage to devices due to improper use or compatibility of power supplies.

The power supply includes a right angle connector to easily power your pedals or devices.

Daisy Chain Adapters - The power supply may be used with the daisy chain adapters to power up to 5 or 10 pedals at once. Connect the output of the power supply to the input connector of the daisy chain, and connect the daisy chain outputs to several guitar pedals. All attached pedals **MUST** meet the power requirements outlined above to prevent permanent damage to the pedals. The combined power requirements of all connected pedals must not exceed 2,000mA.

WARRANTY

All products manufactured by Throne Room Pedals are warranted from defects in parts and workmanship through a TWO YEAR non-transferable warranty from the purchase date. This includes faulty switches, pots, LEDs, and other internal problems. It does NOT include any sort of abuse, including damaged knobs, jacks, LED mounts, scratches and cosmetic defects, failed mods, etc. It also does not include damage sustained from a power supply, including powering with voltages or polarities other than what is listed for a pedal's specifications.

Warranty claims must include a dated proof of purchase from an authorized dealer. The customer is responsible for properly packaging the item(s) and paying shipping costs to Throne Room Pedals. Throne Room Pedals will pay shipping costs back to the customer. All parts and labor costs for repairs of products under warranty will be paid in full by Throne Room Pedals. At our discretion, we will either repair, replace or refund the items submitted for warranty.

We reserve the right to deny warranty claims to items that have sustained obvious abuse or internal tampering, or were improperly packaged by the customer during shipping.

Any repairs outside of the aforementioned warranty may be done at a very reasonable price. Contact us for details.

SUPPORT

For product support, please contact us directly before contacting your place of purchase. We'll be sure to answer any questions you have about the use of our products, or help to resolve any issues.
